

Game0: I hate tetris

Opening scene Dialog:

... : subject O-141. Subject O-141.

O-141: ...hmm..

... : Subject O. Are you listening to me?

O-141: Sorry I wasn't paying attention.

... : Have you heard anything I have said?

O-141: No, I am sorry

... : *Sigh*, I was saying that my name is 'Z-322'.

I was told that you were suffering from the most peculiar of conditions.

Allow me to ask you a few questions.

O-141: Sure.

Z-322: You are of the 'O' species of tetromino am I correct.

O-141: That is correct

Z-322: I am sure you are aware that the 'O' species of tetromino are unable to
'Rotate'.

O-141: I am well aware of that fact.

Z-322: It is not a fact. How can you say that after what happened.

On August 29th, 2017, you were caught changing your body shape.

Something no other tetromino has ever done.

O-141:

Z-322: It is unnatural. It breaks all the laws of mathematics and physics
in our world. The public has been alerted to your, 'uniqueness'.
Some have even started to call you a monster. There is large scale unrest,
you need to come with.

O-141: That's not going to happen.

O-141 jumps through the window onto the streets.

Looks like there are people following. Time to run...

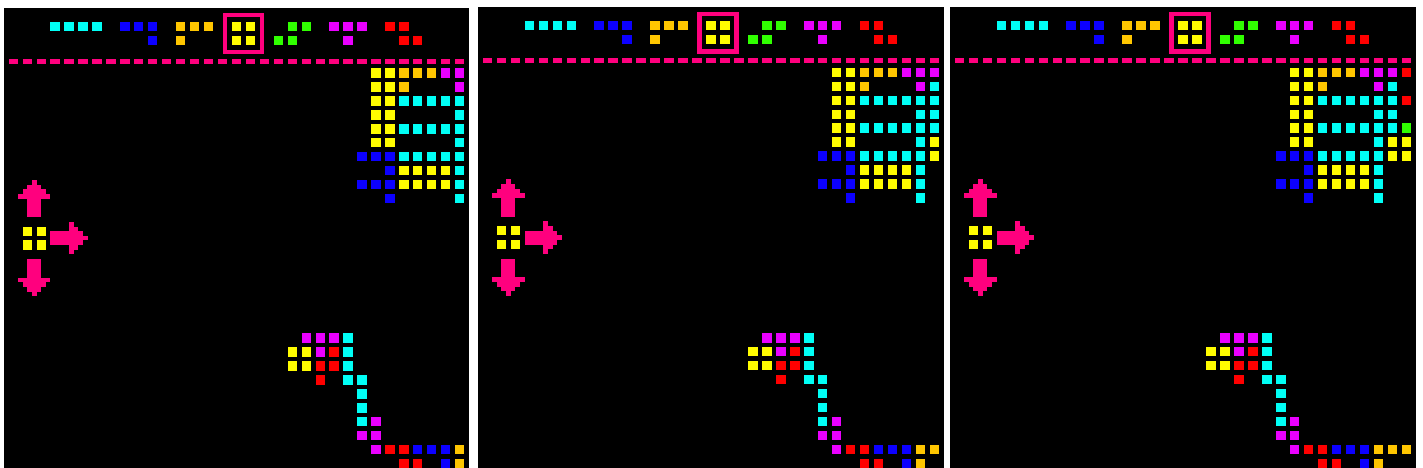

Gameplay:

You are subject O-141 a O-type tetromino starting on screen left center

The game also includes a set of tetris towers and a path that is quickly approaching you.

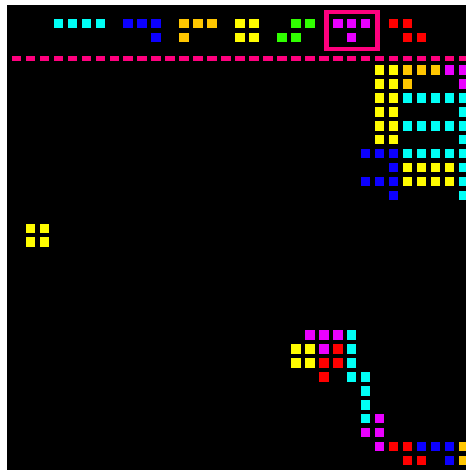

The authorities are trying to lock you away.

Your objective is to get through the towers without coming to a dead end or getting
obstructed.

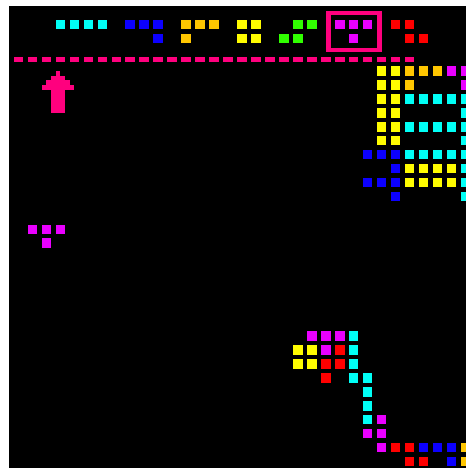

You are a unique tetromino, you have the ability to morph into any tetromino you want. Unfortunately this requires energy. The more you got to transform the more energy you expend.

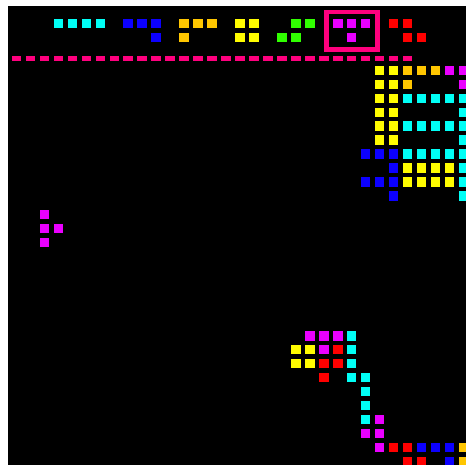

Use mouse wheel to cycle through transformations.

Right click to transform to selected transformation. (Transformation costs energy. Indicated by the arrow. This one cost 4). Energy is replenished with time.

Left click to rotate.

Objective: Reach end of puzzle
(optional gameplay challenges):
Speed increases as time progresses.
Paths maybe blocked off. This may need you to break the tetris structure by
transforming your self into missing key pieces to break the puzzle.
